

步驟

清除 Chrome 快取 (Chrome 版本: 75.0.3770.142)

1

在 Chrome 的右上方按一下 [自訂及管理 Google Chrome] ，然後選[設定]。

2

拉到最下方按[進階]。

The screenshot shows the Windows Settings application, specifically the 'Advanced' (進階) settings page. The interface is in Chinese. At the top, there is a blue header with a menu icon and the text '設定' (Settings) and a search bar labeled '搜尋設定' (Search Settings). Below the header, the settings are organized into sections:

- 顯示書籤列** (Show Bookmarks Bar): A toggle switch is turned off.
- 字型大小** (Font Size): A dropdown menu is set to '中 (建議)' (Medium (Recommended)).
- 自訂字型** (Custom Fonts): A right-pointing arrow indicates further options.
- 頁面縮放** (Page Scaling): A dropdown menu is set to '100%'.

The next section is **搜尋引擎** (Search Engine):

- 網址列中使用的搜尋引擎** (Search engine used in the address bar): A dropdown menu is set to 'Google'.
- 管理搜尋引擎** (Manage search engines): A right-pointing arrow indicates further options.

The next section is **預設瀏覽器** (Default Browser):

- A text box displays 'Google Chrome 無法偵測或設定預設瀏覽器' (Google Chrome cannot be detected or set as the default browser).

The final section is **起始畫面** (Home page):

- Three radio button options are shown:
 - 開啟新分頁 (Open new tab)
 - 繼續瀏覽上次關閉的網頁 (Continue browsing the last closed page)
 - 開啟某個特定網頁或一組網頁 (Open a specific page or a group of pages)

At the bottom center, there is a button labeled '進階' (Advanced) with a downward-pointing arrow, which is highlighted with a red rectangular box.

3

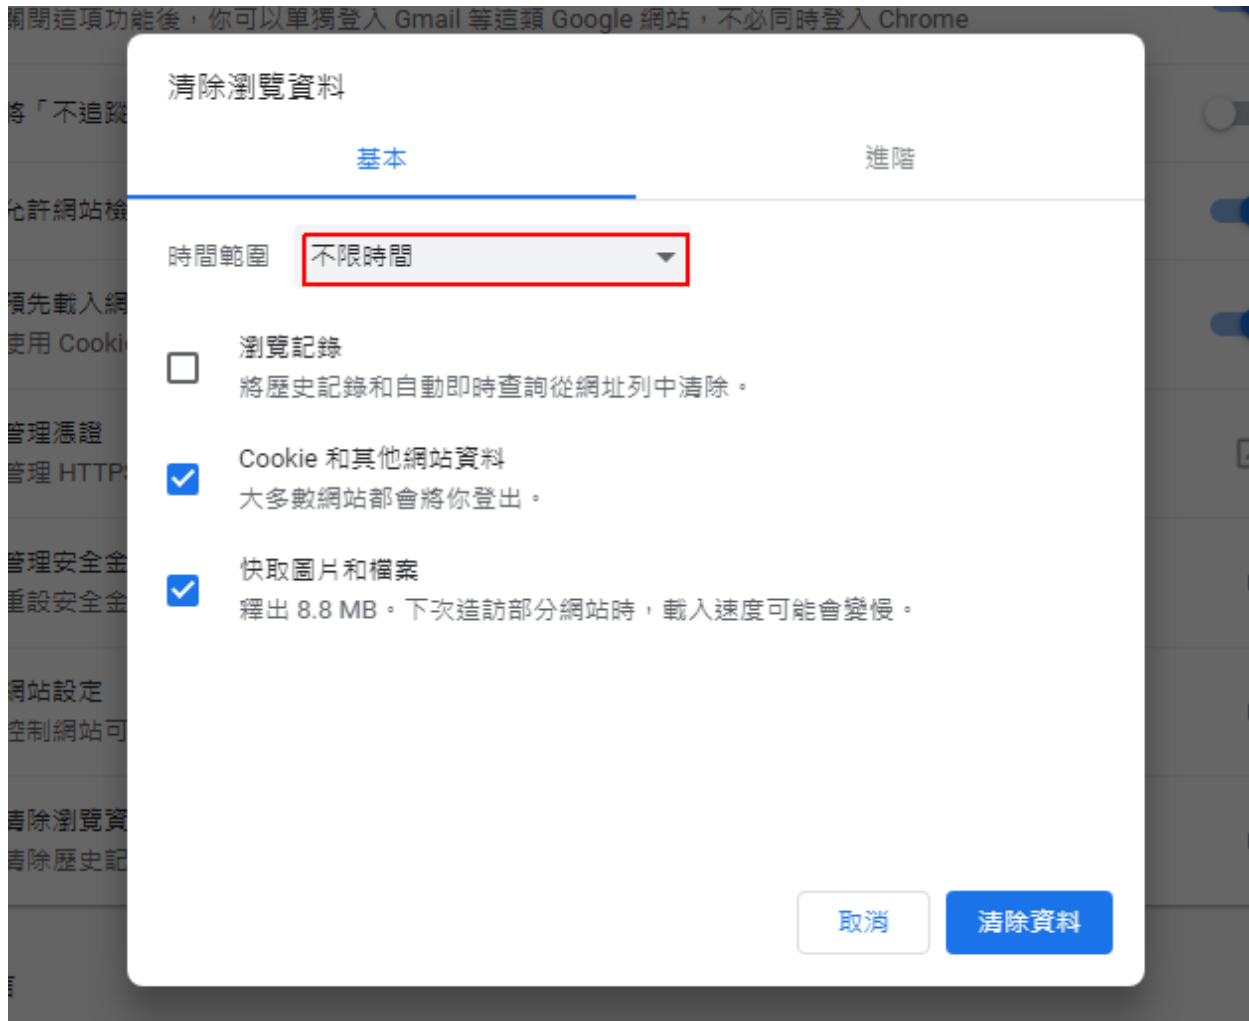

在[隱私權和安全性]中，選[清除瀏覽資料]。

4

在畫面頂端的“時間範圍”內選取 [不限時間]，並勾選 [Cookie 和其他網站資料] 與 [快取圖片和檔案] 旁的方塊，然後按一下 [清除資料]。

請留意按下 [清除資料]後，部份設定將會被刪除。例如你可能需要重新登入一些已登入的網站。

5

暫存記憶已清理，請關閉所有 Google Chrome 瀏覽器及重新登入 COSAC-Plus。
